

## Field Service Technician

---

Full-time, Hunter Valley, NSW

At ECOTECH, we believe together, we create solutions that shape the future. We do this by working with our customers to provide bespoke solutions by designing, manufacturing, operating and supplying sophisticated monitoring equipment. [www.ecotech.com](http://www.ecotech.com)

As an experienced Field Service Technician, this is an excellent opportunity for you to utilise your sound technical knowledge and further develop your skills. Ideally, your experience will be from an electronic/scientific instrumentation background where you have proven yourself by demonstrating strong troubleshooting skills.

In this role, you would be responsible for maintaining Environmental monitoring equipment and will be exposed to a variety of different measuring technologies. To be successful you would be comfortable working on various electronic instruments, calibration equipment and will also have experience with data logging and telemetry.

The position will be based in the Hunter Region, NSW with a company provided vehicle. There will also be travel throughout NSW and occasional interstate travel.

Typically, you will demonstrate a high degree of self-sufficiency and be able to independently troubleshoot a variety of measurement systems. As much of the work is NATA accredited, diligent and thorough record keeping is an essential part of this role.

Key responsibilities include:

- Installing and maintain ECOTECH Equipment and/or systems
- Coordinating and planning of scheduled and unscheduled operations and maintenance service visits
- Providing high level technical support to customers
- Performing maintenance procedures and technical troubleshooting on environmental monitoring systems as required
- Performing installation and commissioning tasks on new monitoring systems as required
- Performing all duties in accordance with ISO 17025, ISO 9001 and relevant Health, Safety and Environmental standards
- Documenting required field records in a timely and accurate manner

Qualifications, skills and experience:

- Relevant tertiary qualifications (TAFE certificate/diploma or equivalent)
- Previous related experience such as environmental instrumentation would be highly regarded
- Instrumentation background and/or suitable mechanical and electrical skills
- Experience with industrial communications protocols
- Sound level of computer literacy
- Demonstrated ability to follow instructions and work with minimal supervision
- Excellent customer service skills

ACOEM Group

- Demonstrated ability to communicate effectively and work collaboratively in a team
- Precise, accurate and diligent record keeping skills

If you have the relevant qualifications and experience, please submit your resume and covering letter to [hari.gomatam@ecotech.com](mailto:hari.gomatam@ecotech.com)

Ecotech is an equal opportunity employer
