Headline:

Australia's leaders in environmental monitoring receive local partner commitment to bring solutions to the Middle East

At the recent ARABLAB 2015 Ecotech made a joint presentation with their Middle Eastern partners, B.D.H. Middle East LLC. Mr. Narendra Pandya, Director of B.D.H. ME said, "The goal of B.D.H. Middle East is to constantly bring together the best technical and industrial expertise to provide viable and cost-effective solutions to laboratories in the Middle East."

Since 1996, B.D.H. Middle East have been the leading global supplier of air quality monitoring systems (AQMS) within the GCC. "In fact, there are no government departments or private organisations where we are not registered, said Mr. Pandya. Partnering with Ecotech for over nine years, "BDH and Ecotech are committed to add value to the Middle Eastern communities and to provide solutions for their environmental monitoring requirements" said Manoj Kumar, Ecotech's International Business Manager for the Middle East.

To confirm their commitment to Ecotech and the growth of the businesses, BDH Middle East plans to establish a service centre in Dubai for Ecotech. The service centre which will include a demo unit, "will allow all valuable customers to understand the application and operation of each system" Mr. Pandya commented.

"We are totally committed to Ecotech and we appreciate the continuous full hearted support from the whole Ecotech team" said Mr. Pandya.

-----Ends-----

Ecotech Pty Ltd is an Australian owned company and a leader in environmental monitoring solutions. Ecotech provides comprehensive solutions for pollution monitoring through its specialisation in ambient air, emissions, dust and particulates, process gas, water and blast monitoring solutions. Ecotech manufactures and supplies air monitoring instruments and turn-key systems through a distributor network to 60 countries across the world wide.
